Classic Legend Series

Classic Legend 880i

The famous Siltech Classic Series has a history of almost 25 years: ultra-silent cables with exceptional sound quality, using Siltech's proprietary pure silver-gold alloy conductors. After the Classic, Classic MkII, and Classic Anniversary series, a new edition is ready to prosper: The Siltech Classic Legend Series.

The new Classic Legend range of interconnects, loudspeaker cables, and power cords delivers exceptional performance for its price. It offers superb value for money thanks to the combination of Siltech's ultra-low loss G9 silver-gold alloy conductors, and an exclusive insulation package using DuPont Teflon and PEEK, for exceptional electrical and mechanical noise rejection.

The latest in Siltech's Classic series of cables, Legend represents the culmination of over thirty years of research into conductor and insulation materials. Despite its accessible pricing, it has low capacitance, excellent high-frequency characteristics, and the lowest possible distortion. This translates to a superbly resolved sound with a smooth, balanced tonality and exceptional stereo imaging properties.

The new Classic Legend Series pioneers the company's ninth-generation G9 silver-gold conductor, using the latest in a long line of special alloys. Using technology trickled down from the flagship Crown range, its insulation uses a combination of DuPont Teflon and PEEK for exceptionally low distortion and unlimited dynamics. It comfortably surpasses all previous Classic cables in technical measurements and subjective sound quality, with an uncannily natural, musical performance

A new Legend is born: Siltech Classic Legend Series.
